

Comprehensive Medical Report

Patient Name:	John Doe
Age:	32
Gender:	Male
Date:	30-Oct-2025

Diagnosis

The patient reports persistent cough and mild fever for 3 days. Examination suggests symptoms consistent with mild bronchitis.

Test Results

Test	Result	Normal Range
CBC	WBC: 9.5 x10^9/L	4.0 - 11.0 x10^9/L
Temperature	99.5°F	97°F - 99°F
Oxygen Saturation	97%	95% - 100%

Doctor's Recommendations

1. Continue hydration and rest.
2. Take prescribed antibiotics for 5 days.
3. Monitor temperature daily.
4. Return for follow-up if symptoms persist beyond one week.
